The National Aeronautics and Space Administration (NASA) and the University of Maryland Eastern Shore (UMES) have a long and distinguished history of collaboration. In November 1997, a Memorandum of Agreement between UMES and the NASA Goddard Space Flight Center, including its Wallops Flight Facility, formalized the opportunity for future collaboration as follows:

"NASA and UMES will continually explore and encourage collaborative activities between NASA's scientists, engineers, and technical support staff and UMES's faculty, students, and technical support staff. The emphasis of these collaborative activities is to provide the faculty and students the opportunity to broaden their educational skills through practical experience relative to planning, designing, and conducting scientific experiments."

### **PROGRAMS & PROJECTS**

# <u>Undergraduate Multi-Disciplinary Earth Science-Airborne Imaging Research Project (UMES-AIR)</u>

*Purpose*: Active learning research project involving flying an instrumented payload up to 2500' on a 21'

tethered blimp

Status: Five successful flights Students: multi-disciplinary ug

Funding: \$32K

**Point of Contact:** Dr. Abhijit Nagchaudhuri, Engineering and Aviation Sciences Department

Phone Number: 410-651-6479

Email:anagchaudhuri@mail.umes.edu

#### Summer Bridge Program

**Purpose:** Bridge gap from high school coursework to freshmen engineering courses preparation

Status: Completed summers of 2000, 2001, and

2003

Students: incoming freshmen

Funding: \$297K, Pre-College Awards for Excellence

in Mathematics, Science, Engineering and

Technology (PACE)

Point of Contact: Dr. Gurbax Singh, Department of Natural Sciences Phone Number: 410-651-6034 Email: gsingh@mail.umes.edu

<u>Mathematics, Engineering and Science</u> <u>Enrichment Pre-College Program (MESEP)</u> Purpose: Ignite students' interest in math, science,

engineering and technology

**Status:** Completed one-year pilot program; secured Goddard Director's Discretionary Funding (DDF) for

follow-on

Students: grades 9-12 from Eastern Shore of MD and

VA high schools

Funding: \$50K; \$20K DDF

Point of Contact: Dr. Peter Ezekwenna, Mathematics

& Computer Science Department *Phone Number:* 410-651-6425 *Email:* PEzekwenna@mail.umes.edu

### Science, Engineering, Math, and Aerospace Academy (SEMAA)

Purpose: Ignite students' interest in math, science,

engineering, and technology

Status: Completed Spring 2002 and Summer 2002;

Recruiting for Fall 2002

Students: Accomack county in VA and Somerset

county in MD, grades 5-8

Funding: \$375K

Point of Contact: Dr. Daniel Okunbor Phone Number: 410-651-6420 Email: diokunbor@mail.umes.edu

### NASA-UMES Student Internship Program

Purpose: Provide ten-week internship for six students

with NASA personnel

Status: Completed Summer 2002

Students: ug and grad

Funding: \$50K

Point of Contact: Ibibia Dabipi, Engineering and

Aviation Science Department *Phone Number:* 410-651-6365 *Email:* ikdabipi@mail.umes.edu

### Announcing the Newest Collaborative Project:

### Mathematics, Science, and Technology Awards for Teacher and Curriculum Enhancement Program (MASTAP)

**Purpose:** Address critical shortage of well qualified math teachers in middle and high schools on Eastern

Shore of MD and VA *Status:* Begins 2003

Participants: Ten each pre-service teachers, inservice teachers seeking math certification, and in-

service teachers with math certification.

Funding: \$584K

Point of Contact: Dr. Daniel Seaton, Math and

Computer Science Department Phone Number: 410-651-66422 Email: dmseaton@mail.umes.edu

### Points of Contact:

Dr. Eddie Boyd Dean, School of Business and Technology (410) 651-6430

**Dr. Ibibia Dabipi**Chair, Engineering and Aviation Science Dept.
(410) 651-6365

Dr. Daniel Okunbor Chair, Math & Comp. Science Dept. (410) 651-6420

### **Presentations & Papers**

A number of presentations have been made on the described projects.
